Cain of Wilmington as Toastmaster.

GRAVEL OPERATION HALTED

Gravel removal operations at the Tello Property on Andover Street were ordered halted last Monday night by the Board of Selectmen, pending the proper bond posting and issuance of license.

A Mr. Watson of Andover who had received permission last August to remove gravel appeared before the Board of Selectmen Monday night in an unsuccessful attempt to have the Bond amount reduced from \$10,000 to \$5,000. Stating that his Bonding Company refused to issue a bond in that amount, Mr. Watson felt that in view of the fact that he had originally intended to work 10 acres and is now only able to work 3 acres, the bond amount should be reduced proportionally.

Questioning by the board revealed the fact that the removal operation had been going on for 3 months, that he had not posted a bond and that he had not picked up his license to operate.

Mr. Black and Mr. Hagerty felt that the operator had not shown good faith from the start, and advised him that the bond should be posted by the record title holder in the first place.

Mr. Watson replied that he would notify Mr. Tello of the situation and that the matter would be clarified. However, a vote of the Board was carried to suspend any further operation on that property until all conditions required by the town were met.

LOWELL GAS COMPANY TO INSTALL GAS LINES

Permits were issued to the Lowell Gas Company to install gas lines on Grove Avenue and Woburn Street, last Monday night at the Board of Selectmen's meeting.

The permits allow the Lowell Gas Company to install 80 feet of gas main along Grove Avenue from Main Street, into Alma's Donut Shop, and along Woburn Street, from Wildwood Street to Federal Street. Installation of a gas storage tank will be made on Woburn Street, temporarily, until next spring, when the Gas Company will continue their present main line from the Wilmington Plaza along Main Street to Route 129 and down Woburn St.

MR. DAWE TO SERVE AS CHAIRMAN FOR RETARDED CHILDREN FUND CAMPAIGN

Mrs. Harold Trekell, President of the East Middlesex Association for Retarded Children, Inc., announced that Warren Dawe of Butters Row, Wilmington, will serve as Fund Drive Chairman of the 1959 Campaign for Retarded Children in this area.

Confirming his appointment as Working Chairman in Wilmington, Mr. Dawe had this to say, "Although we have been saddened recently by the loss of our own son, Mrs. Dawe and I are doubly anxious to help other retarded children. They can and MUST be helped. The East Middlesex Association for Retarded Children, to which we both belong, have in a comparatively short time, established two nursery classes, a Boy Scout Troop, a summer day camp an adolescent study group, and are at the present time, making plans to expand the latter to an Occupational and Day Camp Center, all within our own East Middlesex area. Funds are needed also to promote research to develop preventative measures against retardation. Old soldiers may never die, but they are sure fading away fast, in the town of Wilmington at least.

There are three Veterans Organizations in the town of Wilmington, with a probable roll call of four hundred men, and three Veterans Auxiliaries with a probable roll call of 150 women.

Our country has seen fit to observe Veterans Day out of respect for those men who answered the call to arms in defense of the principles of our great country.

Our town, like many others, pay the veteran organizations a sum of money each year to provide reasonable quarters for the veterans, in our case \$750.00 yearly to each organization. A sum of \$750.00 is also provided for Memorial Services each year, under the direction of the Veterans Organizations.

With the privileges and rights of veterans, there are also obligations!

How apt people are to forget Veterans Day, November 11.

The local veterans organizations did, this year.

Yesterday, Veterans Day, -TWO Legionnaires, ONE V.F.W. member, and EIGHT Legion Auxiliaries, A GRAND TOTAL of 11, showed up in commemoration of all the millions who served in the armed forces since 1917.

Not impressive, is it? When an old soldier, Legionnaire, Arthur Harper has to arrange for a rush ceremony 90 minutes before the 11th hour, when Gold Star Mother, Mrs. Wavie Drew appears as always to say her prayer, when Father Leahy prays for an everlasting peace to one spectator, Don Kidder, and 12 participants (including young David Kierstead of Crest Avenue who played taps) it is time for the town to analyze and determine what privileges and obligations are due the Veterans of town.

When one considers how hard this writer worked with other veterans in the past to achieve a spot in the sun for veterans organizations in this town, one can realize that this is an awfully bitter stand to take, this admittance that we - the Veterans are to blame!

Which brings up that suggestion once more - why not a Veterans Committee, comprised of members of the D.A.V., A.L., and V.F.W., to take charge of and plan all Veteran programs for the year - programs - which the Veterans are obliged to and are the citizens due!

MR. FULLER REGISTERED AT WENTWORTH INSTITUTE

Thomas W. Fuller of 11 Adams Street is registered at Wentworth Institute for the academic year 1959-60, it was announced today by H. Russell Beatty, Wentworth president.

Total of 1,500 day students, the largest in Wentworth's history, registered at Wentworth this year for the two-year technical institute program for careers as industrial and engineering technicians.

An Associate in Engineering degree is awarded at the completion of the required two year course in engineering technology program.

Mr. Fuller is specializing in Mechanical Design Engineering.

..... "It is fine for us to enjoy religious freedom with the right to worship as we please, but does us little good unless we really worship."

..... "Whether it is deer, pheasant, duck or rabbit, it is always good to enjoy the colorful fall days of the woods and open fields."

"Unfortunately, hunting accidents in recent years have multiplied to an alarming degree--mainly because the number of hunters has increased. Every hunter knows the rules of safety as every motorist knows the rules of the highway, but accidents happen with guns as well as with automobiles."

"Ninety-nine times out of 100 hunting accidents are caused by carelessness. A cardinal rule of the hunter is to never carry a loaded gun in the car."

..... "As the public interest is hurt more and more by such long-drawn out labor disputes, the over-riding public right to industrial peace will have to take precedence and a way found to prevent such disruptions of the economy without undue trespass on the rights of workers."

..... "Almost everyone used to regard employing the handicapped as a kind of charity. A man who gave jobs to workers suffering from some sort of physical disadvantage was generally looked upon as a good-hearted fellow willing to assist others at some cost to himself."

"The heart has its reasons. So has the brain. And the brain, judging on the basis of experience, now informs us that employing the handicapped is a lot closer to good business than it is to charity."

TOP SCIENCE STUDENT TO RECEIVE AWARD

The top science student in Wilmington High School will be the recipient at graduation of the Bausch & Lomb Honorary Science Award Medal. All Science Award winners are eligible to compete for annual Science Scholarships sponsored by Bausch & Lomb Optical Co. at the University of Rochester.

The Science Award Medal was introduced in 1932, long before America's need for scientific manpower was as obvious as it is today. The Award has played a significant part in stimulating high school students to a greater appreciation of the many opportunities possible in scientific careers. The program has the official endorsement of the National Association of Secondary-School Principals and the Award is presented in almost 7,000 schools in the United States and Canada.

Bausch & Lomb provides for not less than three Science Scholarships, with a flexible stipend based on need, and with a total four-year value of \$9,600. Only winners of the Honorary Science Award are eligible to compete for the Bausch & Lomb Science Scholarships. In the 16 years that the program has been effective, 60 young men and women have been enrolled at the University of Rochester under Bausch & Lomb Science Scholarships. In addition, because of the high caliber of the contestants, the University has awarded other scholarships of comparable value to 98 runners-up.

The Rochester Scholarship Committee studies all applications and selects 30 of the most promising candidates as finalists. These students are notified of their selection late in March, and the finalists from all parts of the country are invited to Rochester for three days, with all expenses paid, for interviews and competitive tests to determine the scholarship winners.

In order to enter the nationwide scholarship competition, the Science Award winner will be selected and notified early in January. The award recipient should then immediately obtain scholarship blanks from the Director of Admissions, University of Rochester, Rochester 20, New York. Applications must be filled out and returned on or before March 1, 1960.

All students who stand near the top of their class in science studies are advised to check with the head of the Science Department late in 1959, to determine their eligibility for the Science Scholarship competition.

"Do not resent growing old. Many are denied the privilege."

"If Patrick Henry thought taxation without representation was bad, he should see it with representation!"

"Inflation has even affected the value of the human body! For years, the value of the chemical contents of the human body was 98 cents, but at present day prices, it is now worth \$1.17."

WILMINGTON COUNCIL OF CHURCHES TO MEET

The Wilmington Council of Churches will meet on Friday evening, November 13 at 8 p.m. in the Wilmington Methodist Church. Delegates from the respective members churches will be in attendance to hear the reports from the Mass. Council of Churches by Rev. Robert Sanders, delegate to the State Convention.

Plans will be completed for the Thanksgiving morning service of worship to be held in the Wilmington Congregational Church, and others discussed for united programs and projects for the winter and spring season.

Some of the Council delegates will be in attendance at a seminar on Fair Housing Practices to be held in North Andover, sponsored by Boston University on Friday and Saturday, November 13 and 14. The Rev. Richard E. Harding, president of the Wilmington Council of Churches has said that 'the issue of fairer practices in housing in the suburbs of Boston must be realistically faced, and that the color of a man's skin or his creed should not be tolerated as deterrents to families who wish to make their homes and raise their families in suburbs. The church in order to be faithful to its purpose and mission cannot take a back seat in this cause, but must lead the way.'

The constitution and by-laws of the Council will be under further study at this meeting in order that recommended changes may be acted upon in the near future.

LIONS NOTES

LIONS ON THE MARCH--Lionism literally has gone 'to the ends of the earth' with the chartering of the 59'sers Lions Club at the South Pole. As a result, South Pole, Antarctica, become the 101st country or geographical location in which Lions International is represented. The Club, composed of military personnel and scientists based at the Pole for Geophysical Year research, was sponsored by the 49'sers Lions Club of Las Vegas, Nevada, with an early assist from the Waco, Texas Lions, The U.S. Air Force and some radio amateurs.

The July 21 issue of Look Magazine devoted five pages to the touching picture story of the Memphis Lions School for Visually Handicapped Children. Devoted to the education of pre-school blind youngsters, the school is sponsored by 500 members of Lions Clubs in the Memphis, Tennessee, metropolitan area. A 'Lion's Roar' to Look for a sympathetic and beautiful story of a Lions project.

As of July 31, 1959, Lions International had 590,495 members in 14,502 clubs in 101 countries or geographical locations.

Faith restored--Fred Machacek of Granger, Texas, is telling his fellow townsmen these days how his faith in the goodness of mankind has been restored. Only a few months ago, the 76-year-old retired cobbler was losing his eyesight because of cataracts.

The future looked black for him because he had no money for an operation. Then Lion R. F. Holubec heard of his plight and relayed the story to other members of the Granger, Texas Lions Club. Deciding to help, the Club raised money and got additional funds from the county to provide the necessary operation. The surgery proved successful. Machacek can see normally once again and has a new lease on life---thanks to the humanitarian efforts of the Granger Lions.

Strength in Numbers--The Wilmington Lions have grown in strength and they are proud to welcome into their fold five gentlemen who have a great desire to carry on the work of helping the Blind and in being part of many community projects. The men who are interested in the Lions' slogan of Liberty, Intelligence, Our Nations Safety are Ernest Graham, James Farrell, Patrick Thibau, John Lucci and Irwin Hanke.

PTA MEETING

The second meeting of the
Parent Teachers Association of
the Wilmington Junior Senior
High School will be held at 8
p.m. on Tuesday, 17 November
1959 at the High School. The
program, "What Next," will be
of particular significance to
the parents of Juniors and
Seniors, although all parents
are welcome.

Regardless of whether our
children expect to go on to
further education or directly
into a job, the problems of
applications and forms will
face them. This program has
been designed to help you to
help your children put their
best foot forward as they take
their next step through life.
We have prevailed upon Mr.
John H. Hamilton, Guidance
Director, who made such an
interesting presentation at
the last meeting, to join us
again to discuss college ap-
plications and associated mat-
ters. Mrs. George M. Webber,
Head of the Commercial Depart-
ment, will be the co-feature
with suggestions on how best
to approach job applications.
As usual, there will be a pe-
riod for questions and comments
from the audience.

Very shortly, every student
at the High School will be
given an announcement of this
meeting. To help the PTA for-
mulate programs that will be of
greatest interest to its mem-
bers, three questions have
been included. Please answer
them thoughtfully and return
the form as instructed. If
your child does not bring home
such an announcement, ask him
for it.

Association business will
include election of a Nominat-
ing Committee to report at the
January meeting.

His many friends and neighbors hope to see him home soon.

Tonite, (Thursday) is the night of the annual Turkey Whist party sponsored by the American Legion.

It will be held at Post Quarters on Middlesex Avenue, and proceeds will benefit the needy families of our town at Christmas time.

Refreshments will be served following the game. Donation 75¢.

Ernest Crispo, general chairman of the Turkey Whist party which is to be held this Friday night, November 13 at the Shawsheen School, Tewksbury would like to have returns on the books for 13 prizes, made as soon as possible.

Among the prizes for the high scorers of whist are turkeys, turkey dinners, fruit baskets and many other items pertaining to the holiday. The door prizes will be two complete turkey dinners.

This party is for the benefit of St. Dorothy's Building Fund and bids fair to exceed any held.

Open House of the Brookside Kindergarten on Woburn Street, will be held on November 17 Tuesday, between the hours of 7:30 and 9:30 p.m.

This is an opportunity for parents of the students to get acquainted with the school program.

A few business establishments in town, who left their Christmas lights up from last year, will be in style in a

short while, with little or no effort at all.

The Sea Explorers met at the home of Warren Smith on Tuesday evening, and plans were made for a Roller Skating Party to be held on Friday, November 20 at the Hi-Hat Rink in Lowell.

Robert O'Leary was elected to be in charge of uniforms, and he asks residents, that if they have a naval uniform they would care to donate, it will be greatly appreciated.

Richard MacDonald was made crew leader of Crew #2 and Stephen Saunders as his assistant.

Can you help these boys with their uniform problem?

The Halloween Dance sponsored by the Wilmington Youth Canteen, was beyond expectation, and the committee feels that it was a fine way to keep the youngsters 'off the streets.'

It was also pleasing to this organization to have such a large attendance at their dance last week. 250 teenagers had an evening of wholesome entertainment.

The Adult Dance has been postponed until further notice.

On Saturday, November 14, another skating party has been planned. It again will be held at the Hi-Hat in Lowell, and complete charge will be \$1.25. Meet at Weinberg's Parking Lot at 7:15 p.m. where buses will provide transportation.

The next dance held by the Canteen will be on Saturday, November 21 with the 'Nite-Trains.' Further information will be available at a later date.

One can be sure that the teachers of the Wildwood School were very pleased to see the large attendance of parents during Open House held on Tuesday evening.

Let's hope that all other schools had the same response.

Quixotic Strippers

Stuck with six "strippers"—marginal wells that produce hardly enough to cover pumping costs — one enterprising oilman hit upon a unique solution: windmills. Now the breeze turns the windmills that power the engines that pump the oil! Marginal wells account for almost 19 per cent of all the crude oil produced in the United States.

On Loyalty Sunday, November 8 at identical services of worship, 9 a.m. and 10:30 a.m. nearly four hundred persons were in attendance to dedicate to their weekly pledge of money for the year 1960. The Senior Choir under the direction of Mrs. W.T. Staveley sang 'Rise Up O Men of God', and Rev. Richard Harding, preached on the topic: 'The Commitment of One's Money.' Following the sermon individuals and families brought their pledge card to the front of the church where they were presented and knelt for a moment of prayer and meditation before returning to their place in the pews.

The families and individuals who were unable to attend the services have been given an opportunity during the week to bring their pledge to the church and present it at the

altar. Those who have not been able to participate in the program through the morning worship, November 15 will be called upon by the Laymen of the Church, Sunday afternoon, November 15.

The program this year is led by Waldo Stevens, Chairman of the Commission of Stewardship and Finance. The Loyalty Committee includes: Waldo Stevens, William Stickney, Director of Stewardship of the Church, Richard Pelletier, Church Lay Leader, Frank Leavitt, Chairman of the Fisherman's Group, James Madden, Financial Secretary and Rev. Richard E. Harding, pastor of the Church.

There will be only one service on Sunday, November 15 at 10:30 a.m. The Congregation will be given a report of the Loyalty Program at that time.

THE OTHER DAY

A friend was taking about how often great inventions and advances stem from someone's desire to serve or help others although in the beginning of the idea, there was no obvious relationship to the end result.

As an example, he cited that Alexander Graham Bell was put on the path of his invention of the telephone by his desire to help deaf children to talk. He was not an engineer, as one might assume, but began his career as an instructor in speech and music.

In his desire to teach deaf children to talk he hit on the idea that if he could devise a way for them to see sound they would soon be on their way to better articulation. So he devised a way for them to see their own speech vibrations. This he did by developing a membrane that would visibly vibrate from speech sounds, and he did this at a time when electrical transmission of Morse Code was already in use. Thus he had the seed of the idea that he was to develop into the telephone. The next step was causing the vibrations to be transmitted electrically through the vibrations causing variations of intensity of the current.

In March of 1876 he obtained his patent on the telephone and delivered the first spoken sentence ever transmitted electrically over wires to prove that it worked. We don't expect to come up with any great inventions, but we certainly do have as a first desire the goal of serving you to your very best advantage.
